

LAYAN SABHA

Cybersecurity Graduate | Junior DevOps

Amman, Jordan | +962 798691559 | Layansabha@yahoo.com

Portfolio: <https://layansabha.github.io/> | GitHub: <https://github.com/Layansabha>

PROFESSIONAL SUMMARY

Cybersecurity graduate with hands-on internship and project experience across DevOps, networking, and security. Worked with CI/CD workflows, Docker, Kubernetes concepts, Linux, monitoring/logging, web vulnerability assessment, and secure system documentation. Seeking junior engineering roles where I can contribute to reliable deployments, troubleshooting, and secure delivery practices.

CORE SKILLS

DevOps Tools: Linux, Git, GitLab, GitHub, CI/CD (GitLab, Jenkins), Docker, Kubernetes fundamentals, Terraform fundamentals, SonarQube, Trivy, Grafana, monitoring/logging.

Cybersecurity: Web vulnerability assessment, penetration testing fundamentals, bug hunting, ISO 27001 support, GRC frameworks, risk awareness, secure SDLC.

Networking: Cisco networking, routing and switching, IP addressing, network troubleshooting, distributed systems fundamentals.

Programming & Tools: Bash, Java/Spring Boot basics, HTML, CSS, YAML, SQL basics.

Languages: Arabic, English.

EDUCATION

Bachelor of Cyber Security | Hashemite University | 2021 - 2025

EXPERIENCE

Full Stack Engineer (Contract-Based Project) | Family Medicine Clinic - Abdali Hospital | Dec 2025 - Present

- Develop an internal clinical system covering frontend, backend, deployment, and maintenance responsibilities.
- Build application workflows with focus on reliability, usability, and secure handling of system data.
- Configure the application environment, support deployment, and troubleshoot operational issues.

DevOps Intern | Digitinary | Mar 2025 - Apr 2025

- Supported CI/CD workflow tasks using GitLab and practiced standard source-control workflows.
- Built Docker containers and practiced Kubernetes concepts, including nodes, workers, and deployment structure.
- Used SonarQube and Trivy for code quality and container security checks; applied monitoring/logging concepts for visibility.

Cyber Security Intern | Estarta Solutions | Jul 2024 - Sep 2024

- Assisted with web application penetration testing and vulnerability identification.
- Supported ISO 27001 audit activities, compliance documentation, and security control awareness.
- Documented findings and collaborated on risk mitigation and secure implementation practices.

Network Engineer Intern | PSUT x Cisco | Aug 2022 - Nov 2022

- Configured and troubleshoot Cisco networking devices in lab environments.
- Implemented and verified routing and switching protocols and strengthened network troubleshooting skills.

PROJECTS

TRIO - AI-Based DOM XSS Detection | 2025

- Built an ML-based pipeline for DOM XSS detection and vulnerability analysis.
- Trained and evaluated multiple models and integrated automated testing scripts for validation.

Amanak - Government Cybercrime Reporting Application | 2024

- Developed a Spring Boot backend and Android XML mobile app to support cybercrime reporting in Jordan.
- Built user flows, admin dashboard features, and backend APIs using a mock government dataset.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA), Cisco | Certified: Aug 30, 2025 | Valid Through: Aug 30, 2028 | Cisco ID No.: CSC014967361
- Certificate Verification No.: 108947f0d09a494d8500df4a34862d45
- CompTIA Security+ | 2023
